
Kabiru Abubakari

School of Mathematical Sciences
Queen Mary University of London (QMUL)
327 Mile End Rd, London, E1 4NS, UK

Email: k.abubakari@qmul.ac.uk
Website: kb-chalpang.github.io/kabi/

Education

- 2023 – 2026 **Ph.D. Candidate in Mathematical Sciences**, QMUL (Expected)
Primary supervisor: Professor Silvia Liverani
Secondary supervisors: Professor Andrew R. Leitch and Dr. Ilia J. Leitch
- 2021 – 2023 **MSc (M1) Data Analysis**, University of Burgundy
Dijon, France
- 2016 – 2020 **B.A. Economics**, University for Development Studies
Tamale, Ghana

Employment

- 03 – 06 2026 **Postdoctoral Research Assistant** (Part-time)
School of Mathematical Sciences, QMUL
Working on Dynamic Bayesian Models with applications to adversarial settings.
- 2025 **Consultant**, Statistics and Data Science Clinic
School of Mathematical Sciences, QMUL
- 2024 – 2026 **Graduate Teaching Assistant**
School of Mathematical Sciences, QMUL
- 2024 – 2025 **LMS Levelling-up Mathematics Tutor**
London Mathematical Society (LMS)
Taught A-level mathematics to encourage students to pursue STEM in higher education.
- 2023 – 2024 **Graduate Teaching Assistant**
King's College London (KCL)
- 04 – 06 2022 **Research Assistant**, ECONRES
Autonomous University of Madrid (UAM), Madrid, Spain
Worked on structural equation models (SEMs).
- 2020 – 2021 **Teaching and Administrative Assistant**
University for Development Studies, Tamale, Ghana
Completed one-year national service.

Grants & Awards

- 2023 – 2026 **Queen Mary Principal's Award**
Queen Mary University of London
Full tuition fees plus monthly stipend for 42 months (3.5 years).
- 2026 **£1,500 Doctoral College Postgraduate Research Award**
Queen Mary University of London
Grant to support research travel and attending conferences.
- 2026 **\$500 Junior Research Award**
International Society of Bayesian Analysis (ISBA)
Awarded to early-career researchers presenting at the 2026 ISBA World Meeting, Nagoya, Japan.
- 2022 – 2023 **€8,000 ISITE-BFC International Master's Scholarship**
University of Burgundy
Awarded for the MSc DASEE; paid at €800 per month for up to 10 months.
- 2022 **€610 Dynastage Student Grant**
The Higher Education and International Mobility Service
Regional Council of Bourgogne-Franche-Comté

Awarded to support student mobility within the MSc DASEE programme (Grant No. 2022-DE-02378).

2022 **€956 Erasmus+ Internship Mobility Scholarship**

University of Burgundy

Awarded for a research internship in Spain, second semester 2021–2022, within MSc DASEE.

2021 – 2022 **€8,000 ISITE-BFC International Master's Scholarship**

University of Burgundy

Awarded for the MSc DASEE; paid at €800 per month for up to 10 months.

Publications & Manuscripts

Abubakari, K., Matechou, E., Henniges, M.C., Leitch, I.J., Leitch, A.R., & Liverani, S. (2026). False Positives, False Negatives, and the Detection-Only Problem: A Hierarchical Model for Species Occurrence with Observation Error. *arXiv. preprint arXiv:2606.26323*

Henniges, M.C., **Abubakari, K.**, Liverani, S., Antonelli, A., Leitch, I.J., & Leitch, A.R. (2026). Plant genome sizes, functional traits and Ellenberg values indicate that nitrogen deposition is a driver of changing species area trends across Britain over 30 years. *Submitted to the Journal of Ecology.*

Abubakari, K., & Liverani, S. (2026). Data generation for the logistic regression model with target prevalence and target predictive performance. *In preparation.*

Dary, S.K., Yendaw, E., **Abubakari, K.** et al. (2025). Determinants of Gender Preferences for Candidates Standing in Representative Democratic Elections in Ghana. *Journal of Economics, Race, and Policy.*

Issahaku, H., **Abubakari, K.**, & Basit, D.A. (2023). Patterns and causal connections between changes in exchange rates and interest rates in Ghana. *Ghana Journal of Development Studies*, 20(1), 1–19.

Public Engagement & Outreach

Abubakari, K., Al-Mahdawy, Z., Alsulami, H., Garetto, C., Lucero-Azuara, N., Marajh, J., ... & Sansom, R. (2024). Historical contributions of different cultures to mathematics. *Available online.*

2023 **QMUL Festival of Communities**

Queen Mary University of London, London, UK

Participated in the annual community engagement festival, promoting mathematics to the wider public.

Teaching

The following modules were taught during the course of the PhD:

Probability and Statistics

Teaching assistant for first-year undergraduates, QMUL.

Statistical Modelling I (Classical/Frequentist Statistics)

Teaching assistant for first-year undergraduates, QMUL.

Statistical Modelling II (Classical/Frequentist Statistics)

Teaching assistant for third-year undergraduates, QMUL.

Bayesian Statistical Methods

Teaching assistant for third-year undergraduates, QMUL.

Time Series Analysis

Teaching assistant for third-year undergraduates, QMUL.

Computational Statistics

Teaching assistant for MSc students, QMUL.

Biostatistics (QMUL–Nanchang Joint Workshop)

Teaching students in the joint Biomedical Sciences / Clinical Biomedicine degree offered by QMUL and Nanchang University, China.

Skills

Software: R (primary), Python, Stata

Version Control: GitHub

Languages: English (fluent), French (beginner)

Conferences

- 2025 **Joint Statistical Meetings**
Nashville, Tennessee, USA
Poster presentation
- 2025 **Spatial Statistics: At the Dawn of AI**
Noordwijk, Netherlands
Poster presentation
- 2025 **Environmental and Ecological Statistics Conference**
Lancaster, England, UK
Talk
- 2024 **Royal Statistical Society Annual Conference**
Brighton, England, UK
Poster presentation
- 2023 **Research Students Conference**
Sheffield, England, UK
Talk

Referees

Professor Silvia Liverani

Queen Mary University of London, England, UK
s.liverani@qmul.ac.uk

Professor Andrew R. Leitch

Queen Mary University of London, England, UK
a.r.leitch@qmul.ac.uk

Dr. Ilia J. Leitch

Royal Botanic Gardens (Kew), England, UK
i.leitch@kew.org

Professor Coro Chasco

Autonomous University of Madrid, Spain
